

# Science Translational Medicine | AAAS

## JOURNAL SCOPE

**Translational research that matters for human health, connecting biomedical research at the bench to clinical applications at the bedside.**

- Studies in humans or human tissue that provide new information about therapies or disease.
- Results from animal models that apply to patients.
- Reports on innovative drug discovery and device development.

## PUBLICATION FEATURES

- Full-length original **Research Articles**.
- **Reviews** identify the challenges blocking translation and propose innovative solutions.
- **Focus** articles and **Perspectives** present topical opinions from science and policy leaders.

## HIGH-IMPACT RESEARCH IN ALL AREAS OF BIOMEDICINE

- Bioengineering
- Cancer
- Cardiovascular Disease
- Devices and Diagnostics
- Diabetes and Other Metabolic Diseases
- Drug Development and Delivery
- Genomic Medicine
- Infectious Disease
- Imaging
- Immunology, Immunotherapy and Vaccines
- Lung, Bone, and Muscle
- Neurology, Neurodegenerative Diseases and Psychiatry
- Regenerative Medicine
- Stem Cells/Tissue Engineering
